Hypnotizing melodies, bass and percussion blended in a deep tribal mix, that's what gets Ed Noodle going. From downtempo sets at sunset or sunrise, to an energetic train rolling you into the night: in any case the goal will be to keep you dancing with prehistoric power.

Ed is at his best when he takes the time to tell a story, relying on the right tracks and buildup for that exact place and moment in time. A craft he honed at gatherings like AfrikaBurn and Midburn, which fit his sound and energetic presentation like a glove. This brought him to events like The Gardens of Babylon Festival, Secret Brunch in London, FAME by Kater Blau and Harmonizz Festival in Israel.

In addition to being a DJ, Ed also releases his own music on more and more labels and is co-founder of [Wolvenroedel](#), a party pack that he started with [YONDI](#) to get people dancing.
